

INDUSTRIAL SOLUTIONS

We have the knowledge and expertise to keep your industrial facility running smoothly. Our team of specialists and technical experts will provide you the solutions to maximize your business results, including inventory management, customized solutions and so much more.

Asset Management

Utilizing innovative technology combined with our years of experience in logistics and inventory management enable us to help lower total cost of ownership and mitigate supply chain risk while increasing stakeholder satisfaction and enhanced operational efficiency throughout your facility.

- Vendor Management Inventory (VMI)- StoreRoom Pro
- Critical Assets
- Building Envelope

Engineered Solutions

At our Solutions Center, our team of engineers and technicians efficiently and expeditiously provide solutions for the following:

- Control Panel Building
- Cable Assemblies
- Wiring Harnesses
- Enclosure Modifications
- Switchboard/MCC Assembly
- Sub Assemblies

Safety Solutions

Protecting people first and assets next are critical in an industrial environment. We offer a broad selection of the following:

- Safety Training
- Safety Audits/Assessments
- Safety Product Solutions

Industrial ICS/OT

To meet the unique challenges of planning, implementing, and managing OT (Operational Technologies) within the industrial environment, our solutions include:

- Network Assessment
- Structured Cabling
- Security & Process Monitoring
- Data Center Design
- Power Quality
- Overall Equipment Effectiveness

Sustainability Solutions

Let us help shape a more sustainable future as a trusted advisor. Our innovative solutions positively impact:

- Optimization
- Biodiversity
- Energy Efficiency
- Profitability
- Carbon Reduction
- Employees & Stakeholders
