

Engineered Solutions | Solutions Center

ENCLOSURE MODIFICATIONS

Increase precision, accuracy, quality and safety.

Save time by avoiding manual hole and cutout creation—let us provide you with enclosures and back panels that are prepped for installation.

OUR SOLUTIONS CENTER

As a dynamic facility and engineering hub, our knowledgeable and experienced team is committed to providing their expertise with assembly, enclosure modifications, controls engineering, and other services to support your needs. Whether we become an extension of your team or a full-service solution, our team is ready to deliver exceptional results.

ENCLOSURE MODIFICATIONS

*High repeatability for **OEM applications**, yet fast and flexible enough for **one-off custom projects**.*

Quality

Precise CNC Machining

Safety

Minimize Manual Processes

Flexibility

Cuts Wide Variety of Shapes

Capabilities

- Cut, Drill and Tap Enclosures & Sub panels
- Install Backpanels, Shrouds, Dripshields, Feet, etc.
- Install Electrical components on Enclosure or Backpanels
