No need to measure box heights with interlocking brackets

Mounting boxes side-by-side has never been easier.

- Designed to mount two boxes at exactly the same height on either side of the stud.
- Two screws shown for stud mounting, but only one required for UL listing.

One SKU mounts multiple box sizes - fewer parts to handle on the job-site

Built-in back support accessory for job-site flexibility.

- Bracket accepts 4" 4¹¹/₁₆", and 5" boxes.
- Bracket extender easily snaps off of the bracket to snap into place as a back support for up to 6" stud depths.

No box needed for DataComm accessories

- "Rabbit ears" and mud ring allow data communication devices, such as card readers, to be attached to the bracket without the use of a box.

Faster daisy chain boxes

- Two brackets mount to the same side of a stud at the same height.
- Two screws shown for stud mounting, but only one required for UL listing.
